

ICC SWEDEN COMMITTEE ON SUSTAINABILITY OPEN SPRING MEETING

What are the key take-aways from the Stockholm +50? What can businesses expect from the upcoming COP27? And what are the different regulations and policy developments that businesses need to keep track on across a range of jurisdiction, including in Sweden, the E.U., and the U.S.?

ICC Sweden hereby welcomes you to an extended spring meeting of its Committee on Sustainability, tying into the last day of the UN Environmental Conference **Stockholm +50**. Since Stockholm +50 is expected to draw a wide range of international participants, the usually closed committee will now be welcoming external guests from the global business community. The meeting will be held in English.

With high-level speakers from both the public and private sector, this meeting aims to provide a comprehensive outlook on both challenges and opportunities for international businesses in relation to sustainability and bring you up to speed on ongoing discussions and international developments.

To navigate us through these developments, we are proud to present a distinguished list of speakers:

Mattias Frumerie, Head of Delegation to UNFCCC at the Swedish Ministry of Environment, **Lena Hök**, Chair of the ICC Sweden Committee on Sustainability and Executive Vice President Sustainability and Innovation, Skanska Group, **Gabriel Lundström**, Head of ESG Investments, SEB Life, **Mats Pellbäck Scharp**, Head of Sustainability, Ericsson, **Justin Perrettson**, Chair of the Global ICC Commission on Environment & Energy and Head of Sustainability Partnerships, Novozymes, **Marie Trogstam**, Head of Sustainability and Infrastructure, Confederation of Swedish Enterprise, and **Agnes Vinblad**, Policy and Program Associate Sustainability, United States Council for International Business (USCIB). More speakers will be announced shortly.
